

Signature Accent Series

FLAT TRACK
BY LEATHERNECK HARDWARE

The Signature Accent Series creates a unique contrast of finish and color for the Flat Track line. Customers choose the two colors – one for the Base, the other for the Accent. The Base color is applied to the hangers, stops and spacers. The Accent color is applied to the track and overlay.

The custom color overlay acts as a washer under the acorn nut that fastens the hanger to the door - creating a unique offset of color.

Delrin hanger wheels, track mounting screws, anti-jumps and hanger fasteners are in black.

Signature Accent Series colors can be added to any Flat Track by Leatherneck Hardware kit with a list price of \$49 per set.

Color Palette

Shown in Black with Brushed Nickel Overlay.

Example from our wide range of color options. Actual colors may vary.
